

## Visiting lecturer from Portugal

**On 6 May 2009 International School for Social and Business Studies (ISSBS) hosted a Portuguese lecturer, mag. Nelson Duarte, from Instituto Politechnico do Porto. During his visit, organised in the framework of the Erasmus programme, he gave a lecture to students of the course Organization and Management.**

This was mag. Nelson Duarte's first visit to the ISSBS. First-year students of the programme Economy in Modern Society had a chance to listen to his presentation of basic concepts and ideas in the field of entrepreneurship, thought models and relationship between local development and entrepreneurship. In the second part of his lecture they carried out a few entrepreneurial exercises.

ISSBS aims to include foreign lecturers in its study programmes, in the framework of the Erasmus programme as well as based on other international agreements with foreign higher education institutions. In May 2008 we hosted mag. Marisa Ferreira from the Portuguese Instituto Politechnico do Porto. In the framework

of the Erasmus programme she gave a lecture to students of the programme Economy in Modern Society. Last year we also hosted dr. Jay Liebowitz, a world's leading expert in knowledge management, and prof. dr. Krsto Pandža from one of the best British universities, University of Leeds.

In the academic year 2008/2009 we have already hosted two foreign lecturers, namely dr. Zbigniew Pastuszek from the acknowledged Polish university Marie Curie Universitet, Lublin, and mag. Nelson Duarte from the Portuguese Instituto Politechnico do Porto.
